SFEA President's Note

An exciting part of SFEA is providing useful information for Federal Executives. This year we have enjoyed networking with you on topics such as Employee Development, Small Business Initiatives, Building Customer Focused Organizations and Managing Chaos.

The Internet has become a valuable tool in our search for accurate and timely information. It can be difficult to sort through the information available on the information super highway and find something that is worth more than a mouse click in viewing time. Please join us on February 19, 2003 to review Internet tools provided by Federal Agencies that can benefit you personally and professionally.

The meeting will be held in the computer training room at the Springfield Social Security Administration Office (address listed below) where you will have the opportunity to actually use the tools presented.

Updates on upcoming events of interest, including the Combined Federal Campaign awards luncheon and the Federal Employee of the year presentation will be provided.

I am looking forward to seeing you there.
